

Arithmetic (Addition & Subtraction) : Low level

1 Numbers up to 20

Name: _____ Date: _____	
Counting Objects	
	
	
	
	
	

◆ What are Numbers?

Numbers help us **count** things.

👉 We learn numbers from **1 to 20**.

1, 2, 3, 4, 5, 6, 7, 8, 9, 10

11, 12, 13, 14, 15, 16, 17, 18, 19, 20

☛ **Example:**

If there are 7 balloons 🎈, we write the number **7**.

2 Counting Objects

◆ What is Counting?

Counting means **saying numbers in order** while pointing to objects.

☛ **Example:**

Count: 1, 2, 3, 4

So, there are **4 apples**.

🧠 **Practice:**

Count the stars: ★ ★ ★ ★ ★

Answer: _____

3 Addition Using Pictures

HOW MANY?

	+		=	
	+		=	
	+		=	
	+		=	

Name: _____ Date: _____

Adding with objects
Grade 1 Addition Worksheet

Count / draw circles, read / write numbers and find the sums.

	+		___ + ___ = ___
	+		___ + ___ = ___
+		4 + 2 =	___
	+		___ + ___ = ___
+		3 + 5 =	___
+		1 + 6 =	___

4

◆ What is Addition?

Addition means **putting together**.

It tells us **how many in total**.

👉 We use the + (**plus**) sign.

🔑 Example 1:

2 apples + 1 apple

$$2 + 1 = 3$$

🔑 Example 2:

$3 + 2 = ?$

Count forward: $3 \rightarrow 4 \rightarrow 5$

Answer: 5

- Count all objects together.
- Start from the bigger number and count forward.

4 Subtraction Using Pictures

Subtraction

	$5 - 3 = 2$
	$3 - 1 = \bigcirc$
	$6 - 2 = \bigcirc$
	$9 - 7 = \bigcirc$
	$5 - 0 = \bigcirc$
	$1 - 1 = \bigcirc$
	$4 - 3 = \bigcirc$
	$8 - 1 = \bigcirc$
	$7 - 5 = \bigcirc$
	$9 - 4 = \bigcirc$
	$4 - 1 = \bigcirc$
	$6 - 5 = \bigcirc$

take away

To **take away** means to **subtract** e.g. 7 take away 5 means $7 - 5 =$

Early subtraction using counters and blocks.

12 take away 8

17 take away 3

Subtracting vertically with trading (regrouping, borrowing)

345 take away 68

7523 take away 2945

When the bottom digit is greater than the top digit, trade (borrow) a **ten** from the next column left and **/** mark it down by one.

4

◆ What is Subtraction?

Subtraction means **taking away**.

It tells us **how many are left**.

👉 We use the **- (minus)** sign.

🔑 Example 1:

$$5 - 2 = ?$$

Start with 5

Take away 2

Count backward: $5 \rightarrow 4 \rightarrow 3$

Answer: **3**

🔑 Example 2:

Take away

$$4 - 1 = 3$$

🧠 Skills Developed

- ✓ Counting forward (1, 2, 3...)
- ✓ Counting backward (5, 4, 3...)
- ✓ Understanding “**more**” (addition)
- ✓ Understanding “**take away**” (subtraction)
- ✓ Recognizing numbers up to 20

🎯 Quick Practice

1.  +  = _____
2. $6 - 3 =$ _____
3. $4 + 2 =$ _____
4.  -  = _____
