

Comparison

Low Level (Basic Thinking)

1 Big and Small

What is Big and Small?

We compare objects by size.

Big → Large in size

Small → Little in size

☛ Examples:

 Elephant → Big

 Mouse → Small

Big ball  / Small ball 

 Ask: Which ball is bigger?

2 Tall and Short

What is Tall and Short?

We compare objects by height.

Tall → Higher

Short → Lower

☛ Example:

Which tree is taller?

 The taller tree is the one that is higher.

Another example:  Giraffe → Tall

 Dog → Short

3 More and Less

What is More and Less?

We compare numbers or groups.

More → Greater number

Less → Smaller number

Example:

Which group has more apples?

☒ The group with 4 apples has more.

☒ The group with 2 apples has less.
