

# Grade 2 – Science

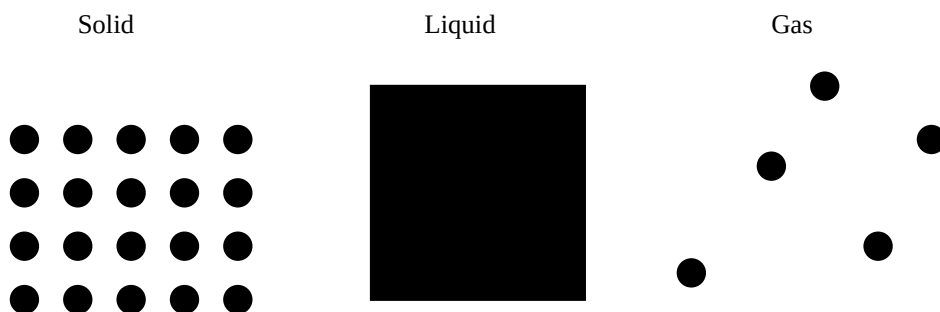

## Topic: States of Matter

### *Beginner Level*

#### *Explanation:*

- Everything around us is made of matter.
- Matter has three main states: Solid, Liquid, and Gas.
- Solids have a fixed shape.
- Liquids take the shape of their container.
- Gases spread out and do not have a fixed shape.

#### *Simple Diagram:*

#### *Examples:*

- Solid: Stone, Book, Ice
- Liquid: Water, Milk, Juice
- Gas: Air, Steam

#### *Learning Outcome:*

- Identify three states of matter.
- Give simple examples of solids, liquids, and gases.
