

Comparison

 Medium Level (Application Thinking)

1 Greater Than (>)

 What Does “Greater Than” Mean?

Greater than (>) means bigger number.

 The symbol > looks like a hungry alligator.

It always opens its mouth to the bigger number.

☛ Example:

8 ___ 5

8 is bigger than 5

So, $8 > 5$ 

2 Less Than (<)

 What Does “Less Than” Mean?

Less than (<) means smaller number.

The small side of the symbol points to the smaller number.

☛ Example:

3 ___ 7

3 is smaller than 7

So, $3 < 7$ 

3 Equal To (=)

 What Does “Equal To” Mean?

Equal to (=) means both numbers are the same.

☛ Example:

10 ___ 10

Both numbers are same

So, $10 = 10$ 

 How to Compare Numbers

Count the numbers carefully.

See which number is bigger or smaller.

Choose the correct symbol:

(Greater than)

< (Less than)

= (Equal to)
