

Grade 2 – Science

Cell Structure

Advanced Level

Concepts:

- Functions of cell parts: Nucleus, Cytoplasm, Cell membrane
- Plant cell parts: Cell wall, Chloroplast, Vacuole
- Compare plant and animal cells

Examples:

- Chloroplast helps plants make food
- Vacuole stores water and food
- Nucleus controls activities of the cell

Learning Outcome:

- Explain functions of cell parts
- Differentiate plant and animal cells
- Apply knowledge in simple diagrams
