

Grade 2 – Science

Topic: Human Body

Beginner Level

Explanation:

- The human body has different parts that help us live and grow.
- External body parts include head, hands, legs, eyes, ears, nose, and mouth.
- Each body part has a special function.
- We must keep our body clean and healthy.

Examples:

- Eyes help us see.
- Ears help us hear.
- Legs help us walk.

Learning Outcome:

- Identify basic body parts.
- Understand simple functions of body parts.
